"Love And Respect God's Entrepreneurs" Over the past decade we have witnessed the power of the Internet in connecting global markets and creating vast e-commerce engines. Large National / International Corporations have dominated the majority of online advertising. A definitive group left behind: Local Business Owners. Today's ROI on Radio,

Television, Print Media has vastly decreased due to Internet savvy consumers. There is a massive void in today's marketplace for a cost efficient solution allowing Local Companies to connect with Local Online Consumers. LARGE International Provides far superior value to business owners than standard Search Engine Optimization or Search Directories. Business success is dependent on repeated exposure to local consumers. Historically this has been accomplished via traditional Radio, Television, and Print Media. These venues are far less viable due to factors listed above. Today local consumers are online more than ever before in history. 63% of consumers today have already thrown away their Yellow Pages and now exclusively seek for their local product and service needs online. Local consumers are online Shopping, Blogging, Gaming, Socializing and more. Through LARGE International, business owners can feature their company in the exact zip code they select while also receiving the highest degree of Professional Branding Features including Logo Display, Coupons, Image Gallery, Videos, Radio, Interactive Driving Directions, Consumer Feedback and more.
